Corporate Governance France) and institutional investors (such as CalPERS in the United States) started enunciating codes of best practice for boards of directors More recently, various laws and reports¹ came in reaction to the many corporate scandals of the late 1990s and early 2000s (eg, Seat, Banesto, Metallgesellschaft, Suez,

Applied Corporate Finance- 3rd Edition

Corporate finance is only a few decades old, and people have been running businesses for thousands of years; it would be exceedingly presumptuous of us to believe that they were in the dark until corporate finance theorists came along and told them what to do To be fair, it is true that corporate financial theory has made advances in taking

Aswath Damodaran INVESTMENT VALUATION: SECOND ...

the 'bigger fool' theory of investing, which argues that the value of an asset is irrelevant as long as there is a 'bigger fool' willing to buy the asset from them While this may provide a basis for some profits, it is a dangerous game to play, since there is no guarantee that such an investor will still be around when the time to sell comes
